

DHRUV KANDPAL

Data Analyst | Business Analyst

dhruvkandpal154@gmail.com • [LinkedIn](#) • [GitHub](#) • +91 8976158778

PROFESSIONAL SUMMARY

Results-driven Data Analyst (B.Tech Computer Engineering, NMIMS 2027) with end-to-end project experience in SQL, Python, Power BI, Tableau, and Excel. Delivered high-impact analytics across customer segmentation (RFM), sales BI dashboards, and passenger satisfaction analysis. Authored an IEEE-track research paper (under review) applying advanced mathematical modelling demonstrating analytical depth beyond standard coursework. Passionate about translating complex datasets into clear, actionable business decisions.

TECHNICAL SKILLS

Languages: SQL, Python, DAX, Power Query
BI & Viz: Power BI, Tableau, Excel (Pivot, VBA)

Databases: MySQL, Google BigQuery (GCP)
Analytics: RFM Analysis, EDA, KPI Reporting, Data Modelling

PROJECTS

Sales Analysis & BI Dashboard – FNP | Excel · Power Query · DAX

Mar – Apr 2026

- Analysed 1,000+ order records; built dashboard tracking ₹35.2L revenue, peak hours (10–11 AM, 7–9 PM) and Tier-2/3 city demand.
- Identified delivery bottlenecks in Tier-2/3 cities using order-level data; developed an Optimisation Strategy quantifying a ~28% reduction in avg. delivery time (5.53 → <4 days) through targeted logistics restructuring.

RFM Customer Segmentation & Churn Analysis | SQL (BigQuery) · Power BI · DAX

Dec 2024 – Jan 2025

- Engineered a BigQuery SQL pipeline using CTEs, UNION ALL, and window functions (NTILE, ROW_NUMBER) to consolidate 12 months of sales data into a single analytics-ready dataset.
- Applied RFM scoring and CASE-based segmentation logic to classify customers into 8 actionable groups; surfaced in Power BI to enable targeted churn-prevention campaigns.

British Airways Reviews Dashboard | Tableau Desktop

Feb 2026 – Mar 2026

- Designed interactive Tableau dashboard analysing passenger satisfaction across routes, aircraft types (A380, Boeing 777), and 5 service metrics.
- Identified correlations between traveller type and recommendation scores to surface priority service improvement areas.

RESEARCH

UAAPS Framework – Predictive Multi-Variable Optimisation Model | IEEE Journal of Communications & Networks (Under Review)

Apr 2026

- Designed and validated a 7-parameter statistical model for resource prioritisation under deadline constraints; applied convex penalty structures and binary threshold modelling to outperform linear baselines directly applicable to SLA management and operational analytics.

LEADERSHIP & EXPERIENCE

Co-Head, PR Department – Sports Committee | NMIMS

Jun 2024 – Feb 2025

- Led team of 20; achieved 5× increase in page views through data-backed content strategy across official social handles.

Executive Member – Microsoft Learn Student Ambassador (MLSA) | NMIMS

Jun 2023 – Feb 2024

- Managed end-to-end design workflows (Figma, Canva) for multi-channel event promotions; maintained consistent visual brand identity.

EDUCATION & CERTIFICATIONS

B.Tech Computer Engineering – NMIMS, Navi Mumbai (Expected 2027)

Class XII – Dnyan Ganga College, MH Board (2023)

Class X – D.A.V. Public School, CBSE (2021) – 93.4%

- Google Cloud Study Jam Program (Jul 2023)
- Intro to Product Management – upGrad (Aug 2024)
- Languages: English (Professional Proficiency), Hindi (Native)
